

Daemonique II: The Darkest Nest

While Sylenna survived her encounter with temptation, the home of the demonic host is vast and the feast of carnal desire unending. Down in those depths, within every cell, succubi and an array of other demons corrupt and twist the mortal heart with depraved pleasure freely. Above them all stands Xianesh, a wickedly exotic and beautiful devil of a creature with every intent to see the world kneel before her. Her latest hunt has been squandered by Wardens above, but all is not yet lost. One interesting little elven woman has been brought for her attention. A seemingly endless host of demons lay within this nest, and all that stands between them and the little elf is a row of cage bars. Xianesh will have her entertainment, one way or the other.
