

All author Lanie Barrett wanted when she purchased one left shoe from an antique dealer was to get an idea for a story that would sell. Instead, she got a trip to Antebellum South Carolina where a madman in a carriage nearly runs her down in the street. What's a girl to do when faced with a true Southern gentleman in the pre Civil War South? Tease him, of course. Daniel Hastings had no idea the woman he nearly killed was from over a hundred years in the future. However, he did know that she was the most beautiful woman he'd ever seen. When danger stalks his new houseguest in his own home, he does everything he can to protect her. He might even be able to think straight if she would only stop getting out of bed half-dressed!
