

Proceedings of IEEE Tencon 98: IEEE Region 10 International Conference on Global Connectivity in Energy, Computer, Communication and Control, New Delhi, 17-19 December 1998

This proceedings text covers a wide spectrum of topics in hardware and software aspects of computing technology. Special sessions focus on computer graphics, multimedia, and parallel processing as factors in developing computer technologies.

IEEE Region 10 International Conference on Global Connectivity in Energy, Computer, Communication and Control. Abstract: The following topics were dealt with: computer networks neural networks genetic Computer, Communication and Control. Article #:.
